

PHYTO-MOISTURIZER GEL MASK

Based on natural active ingredients, instantly boosts the hydration* rate in the skin's surface. Its intense, fresh gel-like texture immediately soothes dehydrated skin stripped of moisture. Erases fine lines and wrinkles, calms stress and reduces tiredness. Skin is left feeling soft and smooth. *the upper layer of the epidermis

Ref. C148 - 50ml tube

Ref. C639 - 250ml plastic bottle

RECOMMENDED for

Suitable for normal and combination skin.

INGREDIENTS & BENEFITS

LAMINARIA DIGITATA & CHLORELLA VULGARIS ALGAE

Obtain by biotechnology a oligosaccharide on which are fixed the amino acids from the chlorella vulgaris and seawater ions. Create on top of the skin a bio-film which prevents from dehydration.

IMPERATA CYLINDRICA

Rich in potassium, increase hydration. Contains DSMP, retain moisture & protect the skin.

BARBARY FIG

The fruit contains polysaccharides, fix the molecule of water and create a protective film for the skin.

HYDROMECTANT ACTIVE

Hygroscopic substances of Polyalcohol type that strongly retains the water on the top of the skin.

HYALURONIC ACID

Trap moisture to recreate a continuous moisture reserve to "pump up" dehydrated cells.

SODIUM PCA

It acts as a humectant to help attract and retain moisture to the skin.

APPLICATION

Apply once or two times a week. Leave for 5 or 10 minutes. Remove the excess with a tissue or gently massage into the skin.
