

LIP CONTROL RE-PLUMPER

A special treatment cream for lips which prevent lipstick from running into the tiny lines around the mouth, maintain lip's hydration rate, soothes lips, keep wrinkles and fine lines around the mouth to a minimum. It also accentuates the shine of lip make up.

Ref. C122 - 15ml tube

RECOMMENDED for

All skin types.

INGREDIENTS & BENEFITS

ALPHA BISABOLOL

Anti-inflammatory, soothing and maintain hydration rate.

D' PANTHENOL

To give the skin shiny and moisturizing effect, stimulate cell division, regeneration and repair tissue.

VITAMIN E

Strengthen cohesion and grant smoothing benefits to drier lip conditions.

APPLICATION

Apply daily in the morning and evening on the lips and lip area. Apply Lip Control Re-Plumper before any other make up in the morning and use it before each fresh application lipstick throughout the day. Used as lip mask at night by taking three times the usual dosage.
