

## LIGHTENING ESSENCE

The Lightening Essence contains the highest concentration of 47% active ingredients (mulberry, liquorice, lemon, green tea and walteria), to regulate and to minimize the appearance of pigmentation spots. This intensive essence restores the glow of the skin by making it more luminous and transparent. The texture of the skin becomes smoother and more refined.

Ref. C137 - 30ml glass pump bottle

### RECOMMENDED for

Suitable for all skin types. Ideal for pigmentation skin.

### INGREDIENTS & BENEFITS

#### 47% OF - WALTHERIA INDICA, GLUCONIC ACID, CITRIC ACID & FERULIC ACID

Both reduce activation of tyrosine, inhibit melanin formation thus improving dull complexion and diminish dark spots to achieve a deep whitening effect and give skin a radiant and delicate complexion.

#### EXTRACTS OF WHITE MULBERRY, LIQUORICE & LEMON

Used to strengthen the range's skin whitening and anti-irritant properties.

#### EXTRACTS OF GREEN TEA & GRAPEVINE

Used for their anti-oxidant properties and their ability to combat free radical activity and promote cell exchanges.

#### LEMON ESSENTIAL OIL

Used for its toning virtues and powerful active ingredients.

### APPLICATION

Apply twice a day underneath Lightening Cream. Smooth the essence over the skin, working it in using circular movements.
