

SCULPTOVAL

CAROLE FRANCK has created and launches a daily skincare focused on age-related thickening of the facial skin, from plants known for their efficiency. Sculptoval redefines cheeks and reduces double chins. It lifts and firms up facial contours. Smoothing the neck and redefining the face for a younger appearance.

TONING

Sculptoval contains a complex of plants with slimming properties including sacred lotus, centella asiatica, which is certified organic and the essential oil of cedar. This complex has a toning effect and redefines the jaw line.

LIFTING

The very cool sensation helps to create vaso-constriction effect and refines the skin texture. Sculptoval has an immediate firming effect which is prolonged.

FIRMING

The skin is more toned and firmer thanks to extracts of clover and water horsetail which work in partnership to improve elasticity.
