- Evens complexion like a lightweight primer
- Water resistant
- Ideal to wear alone or under your foundation

Ref. C403 - 50ml tube

INDICATION

This sun care cream ensures a high protection from intensive sun (sea and mountain).

RECOMMENDED for

All skin types.

INGREDIENTS & BENEFITS

OCTINOXATE (ETHYLHEXYL METHOXYCINNAMATE)

An FDA approved water-resistant sunscreen that provides excellent UVB absorption that helps prevent sun damage to the skin.

OCTOCRYLENE

An FDA approved sunscreen that provides excellent UVB absorption as well as short-wave UVA.

HIGH PROTECTION FACE SUN CREAM SPF30

UVA & UVB SUN FILTER (DIETHYLAMINO HYDROXYBENZOYL HEXYL BENZOATE & ETHYLHEXYL TRIAZONE)

Excellent long-wave UVA protection against deeply penetrating UV rays. It has a powerful action against free radicals generation for preventing premature skin aging. Effective SPF boosting for effective UV protection. Reliable photo stability for long-lasting performance.

G.P.S. (SILANETRIOL TREHALOSE ETHER)

Interstitial and surface biological hydration for skin subjected to dehydration. Membrane stabilization. Protective effect of the dermis against water shock, heat, oxidative stress and other stress dermal processes.

CYCLOPENTASILOXANE (EMOLLIENT)

A non-toxic silicone known for waterproofing and lubricating qualities. Leaves skin silky-smooth and is a great dry skin remedy.

CETIOL CC (DICAPRYLYL CARBONATE)

Cetiol CC is a natural vegetable sourced emollient, which helps to soften the skin. Dicaprylyl carbonate in particular is one of 3 main solids derived from plant oils that specifically act as a good emollient and does not leave an oily film on the skin.

DPG (DIPROPYLENE GLYCOL)

A vegetable-based humectant that draws moisture from the surrounding atmosphere into the skin, preventing dryness, cracking, chapping, irritation and skin build-up.

APPLICATION

Apply generously to face and neck before exposure to sun. For an optimum protection, reapply frequently. Can also be used before makeup with the first sunny days.

WARNING

Do not expose young children and babies to sun, over exposition to sunlight is a danger for health: limit exposition duration.
