

Beauty is not found, but discovered.

On average, our bodies are covered by 2m². We are stuck in our skin for an entire life time. That is why we should treat it with care.

Nowadays, cosmetics can provide much more than just beauty care. Cosmetics products can act as modern health care; they repair, stimulate, and balance skin functions and vitalize, hydrate and regenerate our skin.

With the CUTANOVA skin care line as your daily companion, you will simply feel good in your skin.

CLEANSING CREAM

Foaming cleansing cream

REF: 454 (R)

PRESENTATION: 100ml tube

The Dr. RIMPLER CUTANOVA Cleansing Cream containing chamomile is ideally suited for daily use. It is an ideal product for clients who do not want to give up the foaming feeling of soaps. The foam is gentle to the skin and cleans the skin softly but also intensely. The skin is optimally prepared for following skin care products.

RECOMMENDED FOR:

For all skin types of skin especially mature skin.

CHARACTERISTIC:

A gentle non-irritating, soothing cleanser that deeply cleanses, protects and hydrates the skin. It also neutralizes the effects on the skin from hard water to preserve its softness and suppleness.

INGREDIENTS & BENEFITS:

Chamomile

Has extraordinary healing and anti-inflammatory properties. It soothes and heals irritations.

Gentle Emulsifier

Ultra-mild cleansing surfactant system, it is well suited for development of mild high foaming cleansers that remove make up and dirt. This excellent foaming cleanser is mild to both skin and the eyes. Non-defatting and leaves the skin with a pleasant after feel.

Soothing Lipids (Glyceryl Stearate)

Obtained from vegetable oil acts acting as a lubricant on the skin's surface, giving the skin a soft and smooth appearance. It also slows the loss of water from the skin by forming a barrier on the skin's surface.

APPLICATION:

Every morning and evening take a medium sized piece of CUTANOVA Cleansing Cream into the hands and build soft foam by mixing it with water. Apply this foam with circular movements to the face and remove remains with water.

CREAM EYE CONTOUR

Special eye care

REF: 460 (R)

PRESENTATION: 20ml tube

Dr. RIMPLER CUTANOVA Cream Eye Contour with patented NLCs is a balm for every tired, demanding eye area. High-capacity components in select, natural oils and several herbal essences make this cream to a quite very special nurturing experience with a sensational result. A MUST HAVE for all enthusiastic beauty fans!

RECOMMENDED FOR:

For all skin types.

CHARACTERISTIC:

Reduces wrinkles, plumps up, evens restructures and protects.

INGREDIENTS & BENEFITS:

Native Collagen:

a) [Acacia Senegal Gum](#)

Acacia Senegal gum polysaccharides stimulate the fibroblasts proliferation, increase type I and type III collagen synthesis, and present skin regenerative properties. The tightening effect leads to a visible and immediate reduction of wrinkle depth. The skin appears softer and younger and fine wrinkles disappear. This action is especially noticeable for wrinkles in the eye area (crow's feet).

b) [Persian Silk Trees \(Albizia Julibrissin Extract\)](#)

Albizia extract protects fibroblasts from premature ageing; keeps collagen and elastin quality (action to prevent glycation); reduces accumulation of toxins in the cells (stops glycation); helps cells to produce their own energy; protects micro vascular network. It reduces the cause and signs of fatigue on the skin, improves dermal fiber quality and the appearance of dark circles, under eye bags and drawn facial features.

[Dimethicone](#)

A silicone-based polymer which enhances skin's barrier function and gives skin a smooth, velvet feel. It also can fill in fine lines/wrinkles on the face, giving it a temporary "plump" look.

CREAM EYE CONTOUR

Special eye care

[7 Prestigious Skin Caring Extracts \(Magnolia, Chamomile, White Willow Bark, Green Tea, Thujopsis Dolabrata Branch, Grapefruit & Propolis\)](#)

An natural age defying formula contains high concentration of anti-oxidants, vitamins, amino acids, lipids and minerals, which are essential for skin cellular mechanism, collagen synthesis, anti-aging and regenerative activities. It has multiple functions:

- Anti-oxidant with moisturizing activity: to protect the skin's natural defense against the environment while preventing moisture loss and helping all skin types prevent and repair visible signs of aging.
- Anti-microbial activity: to fight against skin problem caused by microorganisms including gram negative and gram positive bacteria, yeast and fungi.
- Soothing & anti-irritate: help prevent and reverse signs of inflammation, calm and soothe irritated skin around eye area.

[Ximenia Americana Seed Oil](#)

Derived from the seed of the fruit shrub found in Southern Africa, a super hydrating natural oil preserves the integrity of the cell wall and has a restructuring effect. Nourishing and moisturizing, it softens and revitalizes the skin naturally.

APPLICATION:

Application in the morning and evening on the eye area and massage in smoothly.

CREAM HYDROVITAL

Vitalizing moisturizing care

REF: 475 (R)
475.2 (C)

PRESENTATION: 50ml jar
200ml tube

The Dr. RIMPLER CUTANOVA Cream Hydrovital (O/W) is a revitalizing care for the dry and sensitive skin. It is rich in herbal oils and natural vitamin E and donates the skin a profound and effective moisture; with the result of a healthy and radiant complexion.

RECOMMENDED FOR:

For dry, mature and stressed skin.

CHARACTERISTIC:

Reduces the transepidermal water loss, moisturizing, balances the lack of sebum.

INGREDIENTS & BENEFITS:

Glycoprotein

Glycoproteins is an aqueous mixture of proteins, peptides and amino acids derived from natural yeast species *Saccharomyces Cerevisiae* (baker's yeast) by a simple fermentation process. Glycoproteins are similar to proteins found naturally within human skin which makes it easily accepted by the upper dermal layers. Glycoproteins stimulate cell growth for long-term reversal of damage caused by aging and environmental pollution. It stimulates collagen synthesis, but also promotes the water binding capacity of the skin and prevents dehydration. It also supports tissue regeneration. The skin is restructured and fine lines reduced.

Hydration And Repair Of The Cutaneous Barrier:

Biofiltrat Of Lactic Acid Bacterials

A lactobacillus casei biofiltrate (water-soluble) to provide an immediate moisturisation of epidermal superficial layers.

Trihydroxypalmitic Acid (Aleuritic Acid)

This is a trihydroxy acid produced from shellac resin by hydrolysis. Trihydroxypalmitic acid (oil-soluble) to ensure in-depth hydration via the reinforcement of the cutaneous barrier.

**The two main natural processes ensuring proper moisturisation: the water-soluble moisturising agents ensuring a long-lasting, immediate superficial hydration and an oil-soluble molecule that helps repair the cutaneous barrier to guarantee an in-depth, long-term hydration.*

CREAM HYDROVITAL

Vitalizing moisturizing care

Wheat Germ Oil

Alleviates roughness and uneven patchy skin; assists in boosting the production of collagen; rich in Vitamins E, A and D, lecithin and squalane which promotes antioxidant actions while also normalizing the lipid barrier.

Aloe Vera

It is well known as a "miracle plant" which naturally rich in enzymes, vitamins, proteins and minerals. Aloe Vera aids to heal and soothe burned, irritated or inflamed skin; help to maintain skin's moisture balance; increases the synthesis and strength of skin tissue and encourages new skin cell production.

Vitamin E

Vitamin E helps prevent the appearance of age spots and maintains the skin's oil balance. It also helps strengthen skin barrier function by acting as a skin conditioning agent and preventing transdermal water loss.

APPLICATION:

After the appropriate cleansing work in thoroughly with a circling massage. The perfect day care even during the cold season of the year as well.

BEAUTY SPA:

Vitalizing, deeply moisturizing care for demanding skin. Limited suitability for massage.

CREAM PHOTO SYMBIOTIC

Light repair care

Squalane

A highly refined moisturizing oil derived from the olive; a major component of human skin surface lipids (or oils); helps to keep skin soft and healthy; antioxidant capabilities help to protect from the harsh effects of the environment.

APPLICATION:

The cream is recommended for HER and for HIM. The special light and non-oily texture gives HIM a fresh and smooth skin after the daily shave. The ingredients stimulate the quick healing up of redness and balance the skin to normal condition.

BEAUTY SPA:

Light, modern cream for Him & Her to support the skin's natural repair mechanisms. Limited suitability for massage.
