

## Sunbathing without regrets

A natural tan underlines the attractiveness of modern, vital people.

It still is a sign for life style, well-being and fitness.

But sun is like medicine: only the correct dose secures positives effects.

Therefore, the great secret of “sunbathing without regrets” is to enjoy a sun bath without crossing the edge to sun burn. In this manner, a safe pigmentation with a maximum tan can be achieved at the same time.

## SUN STICK SPF 30

High sun protection

**REF:** 514 (R)      **PRESENTATION:** 4.5g stick

Sun stick care for local intensive protection. NOW with new formula and enriched with valuable avocado oil, for all sensible areas!

This profound formula of waxes, natural oils and Vitamin E pampers and nourishes the skin even already in the sun. The high sun protection factor almost completely blocks harmful UV-radiation and in combination with valuable substances the Sun Stick counteracts premature ageing.

**RECOMMENDED FOR:** All skin types.

### **CHARACTERISTIC:**

SPF 30, protecting and nourishing.

### **INGREDIENTS & BENEFITS:**

UV-Protective:

Octinoxate (Ethylhexyl Methoxycinnamate)

An FDA approved water-resistant sunscreen that provides excellent UVB absorption that helps prevent sun damage to the skin.

Avobenzone (Butyl Methoxydibenzoylmethane)

Avobenzone is a highly effective broad spectrum sunscreen ingredient offering superior protection from UVA rays and helps prevent breakdown during UV exposure.

UVA & UVB Sun Filter (Diethylamino Hydroxybenzoyl Hexyl Benzoate & Ethylhexyl Triazone)

Excellent long-wave UVA protection against deeply penetrating UV rays. It has a powerful action against free radical generation for preventing premature skin aging. Effective SPF boosting for effective UV protection. Reliable photo stability for long-lasting performance.

Vitamin E

Vitamin E helps prevent the appearance of age spots and maintains the skin's oil balance. It also helps strengthen skin barrier function by acting as a skin conditioning agent and preventing transdermal water loss.

## SUN STICK SPF 30

High sun protection

### Avocado Oil

Avocado Oil, derived from the fruit of a tropical American tree, is a rich, fatty-acid emollient. It is also a natural source of Amino Acid proteins, Vitamins A, D, E, and potassium. It is high in sterolins, which are reputed to reduce age spots, help heal sun damage and scars. It is an extremely good moisturizing and nourishing compound, assisting in the regeneration and rejuvenation of the skin. Avocado oil is easily absorbed into deep tissue, and with its wonderfully emollient properties, makes it ideal for mature skins.

### Ricinus Oil (Castor Oil)

Castor oil is a vegetable oil obtained from the castor bean. Castor oil is rich in fatty acids and is soothing and lubricating. It offers anti-inflammatory properties, helps treat eczema, psoriasis, chapped skin, burns and moisturizes skin. It is a humectant that attracts moisture to the skin. It acts as a protective barrier on skin, great in dry climates and colder seasons.

### Beeswax

A natural substance obtained from the honeycomb. It has powerful anti-microbial properties. Known to lock in moisture, foster cells, and protect skin from damaging environmental factors.

### Candelilla Wax

Candelilla wax is obtained from a shrub-like member of the spurge family, Euphorbia, native to Mexico. A protective layer of the wax covers the plant. And in the same way as it protects the plant, this wax protects the skin against moisture loss and makes it soft and supple.

### Shea Butter

Shea Butter is the natural fat obtained from the fruit of the African Karate tree. Protects skin from dehydration, restores skin's suppleness and improves the appearance of dry skin. It contains fatty acids, phytosterol and unsaponifiables which stimulate the skin's renewal process, providing a more youthful, vibrant appearance.

### **APPLICATION:**

Apply several times a day corresponding to the individual demand on the sensible areas. Especially on lips, eyes, nose and if required nipples.

### **SALES HINTS:**

**A MUST HAVE** This product belongs in every hand bag and holiday luggage suitable for the whole family.

## FACE CREAM SPF 30

Rich sun cream

**REF:** 513 (R)

**PRESENTATION:** 75ml tube

This high quality sun care cream provides protection, care and regeneration, specifically for the face and neck. Precious oils have a soothing, protective effect while a natural extract, rich in ursolic, oleanolic acid, vitamins B and E, protects the natural collagens and stimulates their production. The harmful effects of the sun are thus avoided and faint lines and folds are smoothed out. The application of this product with its light, pleasant texture is an enjoyable skin care experience during sunbathing.

### RECOMMENDED FOR:

All skin types.

### CHARACTERISTIC:

Sun protecting, moisturizing, anti-inflammatory, promotes cellular repair and regeneration.

### INGREDIENTS & BENEFITS:

UV-Protective:

[Octinoxate \(Ethylhexyl Methoxycinnamate\)](#)

An FDA approved water-resistant sunscreen that provides excellent UVB absorption that helps prevent sun damage to the skin.

[Oxybenzone \(Benzophenone-3\)](#)

Oxybenzone primarily functions as a photo stabilizer and sunscreen. Among the selection active chemical protectants, Oxybenzone covers UVB and some UVA rays with wavelengths from 290 to 360 nm, protecting the skin from direct DNA damage. It protects against a wider spectrum of UVA rays but not completely.

[Panthenol](#)

Derived from plants, Panthenol is also known as B5. It is a humectant property to optimize moisture levels. It stimulates the formation of new skin cells, improves healing and counteracts inflammation. Panthenol is also used to alleviate mild sunburns.

[Squalane](#)

Derived from olives; a major component of human skin surface lipids (or oils); helps to keep skin soft and healthy; antioxidant capabilities help to protect from the harsh effects of the environment.

## FACE CREAM SPF 30

Rich sun cream

### Ursolic Acid + Oleanolic Acid

Powerful, naturally derived triterpenoids acid. It provides a targeted approach to anti-aging skin repair and sun protection through reactivation, protection and optimization of the skins own cellular mechanisms. Furthermore, it protects and refolds proteins damaged by UV and free radical exposure and stimulates new collagen synthesis to counter the effects of thinning and sagging skin caused by photo damage.

### **APPLICATION:**

Before sunbathing, apply to face and neck. Reapply approximately every 2 hours and always after bathing in order to maintain the complete UV-protection.

### **SALES HINTS:**

- Recommended as a face sun care product for every holiday in order to guarantee adequate UV protection.
- Sun protection and skin repair in one product.
- An ideal supplement to complete cabin treatments such as dermabrasion and AHA- and whitening facials, which significantly increase photosensitivity.

### **BEAUTY SPA:**

As a final care after a microdermabrasion or fruit acid facial treatment.

## HIGH PROTECTION SPF 30

Sun lotion with high protection

**REF:** 517 (R)

**PRESENTATION:** 200ml tube

Dr. Rimpler SUN High Protection SPF-high, the oil-free sun protection lotion from Dr. RIMPLER COSMETIC is both, waterproof and sweat resistant. Very easy to apply and leaves a pleasant soft, non-sticky film, on the skin. Ideal for children as well.

The complete protection for the UVA & UVB range, together with the nurturing properties of aloe extract offers an up to 30 times longer sun exposure, than without sun protection. The high protection is the perfect product especially for the most sensitive and untanned skin. Paraben-free.

### RECOMMENDED FOR:

All skin types even for babies as well.

### CHARACTERISTIC:

Waterproofed sunscreen, moisturizing and soothing.

### INGREDIENTS & BENEFITS:

UV-Protective:

#### Octinoxate (Ethylhexyl Methoxycinnamate)

An FDA approved water-resistant sunscreen that provides excellent UVB absorption that helps prevent sun damage to the skin.

#### Oxybenzone (Benzophenone-3)

Oxybenzone primarily functions as a photo stabilizer and sunscreen. Among the selection active chemical protectants, Oxybenzone covers UVB and some UVA rays with wavelengths from 290 to 360 nm, protecting the skin from direct DNA damage. It protects against a wider spectrum of UVA rays but not completely.

#### Panthenol

Derived from plants, Panthenol is also known as B5. It is a humectant property to optimize moisture levels. It stimulates the formation of new skin cells, improves healing and counteracts inflammation. Panthenol is also used to alleviate mild sunburns.

## HIGH PROTECTION SPF 30

Sun lotion with high protection

### Aloe Vera

It is well known as a "miracle plant" which naturally rich in enzymes, vitamins, proteins and minerals. Aloe Vera aids to heal and soothe burned, irritated or inflamed skin; help to maintain skin's moisture balance; increases the synthesis and strength of skin tissue and encourages new skin cell production.

### Bisabolol

The main active ingredient of Chamomile plant, Bisabolol has anti-inflammatory, anti-bacterial and anti-irritant properties and helps protect skin against environmental stressors. It has a calming property that is effective in significantly helping to reduce the appearance of redness.

### **APPLICATION:**

Before sunbathing, apply a sufficient quantity.

### **SALES HINTS:**

- Oil-free lotion, without any emulsifiers.
- With broad-spectrum filter, total UV protection.
- Moisturizing and soothing even while sunbathing.
- Sweat- and waterproofed, therefore intensive protection while swimming and sports. Ideal for children and water sports enthusiasts!

## PROTECTION XTREME 50+

Sun cream with SPF 50+

**REF:** 510 (R)      **PRESENTATION:** 75ml tube

One of a kind novelty with high innovative sun protection to the max without a higher allergy! Sunbathing without regrets!

Protection Xtreme sun care (O/W) SPF 50 + provides even the most delicate skin maximum protection against sunrays. The broad spectrum protection filter guarantees practically complete protection (98%) of UV-A and UV-B rays resulting by the combination of free chemical protection factors in an emulsion matrix + “packed” in a novel encapsulation technology.

Due to intensive research and co-operation succeeded the use of a new protective shield for chemical high sun protection factors in the Protection Xtreme SPF 50+ for the first time.

The now patented stable capsules made of natural material ranging in size from 300 – 600 nm do enclose the chemical SPF's safe like a “safe”, this avoids the direct contact and a higher allergy risk.

The capsules dock at the skin surface, forming an invisible solid film functions there as the interceptors in the fight against radiation.

### RECOMMENDED FOR:

All skin types.

### CHARACTERISTIC:

Extreme high protection against UVA + UVB, nurturing, not sticky, highly skin-compatible, not water resistant.

### INGREDIENTS & BENEFITS:

UV-Protective:

Octocrylene

The action spectrum of Octocrylene (290nm- 360nm) has the ability to cover mostly UVB wave lengths but also short UVA wave lengths. It's mainly to neutralize UV radiation dissipated by the sunlight and to minimize skin damage from prolonged sun exposure.

## PROTECTION XTREME 50+

Sun cream with SPF 50+

### Octinoxate (Ethylhexyl Methoxycinnamate)

An FDA approved water-resistant sunscreen that provides excellent UVB absorption that helps prevent sun damage to the skin.

### Uvinul® A Plus (Diethylamino Hydroxybenzoyl Hexyl Benzoate)

An oil soluble UVA filter with excellent photo stability. Desired ingredients to cover the whole UVA from 320nm – 400nm, in addition it is also providing a strong protective effect for skin to prevent free radical damage.

### Oxybenzone (Benzophenone-3)

Oxybenzone primarily functions as a photo stabilizer and sunscreen. Among the selection active chemical protectants, Oxybenzone covers UVB and some UVA rays with wavelengths from 290 to 360 nm, protecting the skin from direct DNA damage. It protects against a wider spectrum of UVA rays but not completely.

### Avobenzene (Butyl Methoxydibenzoylmethane)

Avobenzene is a highly effective broad spectrum sunscreen ingredient offering superior protection from UVA rays and helps prevent breakdown during UV exposure.

### Vitamin E

Vitamin E helps prevent the appearance of age spots and maintains the skin's oil balance. It also helps strengthen skin barrier function by acting as a skin conditioning agent and preventing transdermal water loss.

### Sunflower Seed Oil

Sunflowers seeds yield a lightweight soothing and replenishing oil rich in unsaturated linoleic and oleic fatty acids and tocopherols and minerals. It has the properties of antioxidant and can retain moisture in the skin. It may also provide a protective barrier that resists UV damage.

### **APPLICATION:**

Suitable for babies as well. Applicable an adequate amount, on the body, before enjoying the sun. It is absolutely necessary to reapply the care after swimming or sweating.

### **SALES HINTS:**

Maximum sun protection – minimum allergy risk. Especially for kids and water- & winter sport fans. No stickiness, no white remaining!
