Regenerating – A luxurious elixir of active ingredient in a silky texture for regeneration of demanding skin. Protects the skin against external stress; increases the longevity of the fibroblast; for a better cell communication; protection of the cellular defense.

RECOMMENDED FOR:

Recommended for clients who are concerned with slackened skin tone and the ageing process.

INGREDIENTS & BENEFITS:

[Reforcyl®](#)

Which is approved by Ecocert, helps regenerate the perturbed barrier of mature skin and provides new resistance. The contents included:

- The plant *Gynostemma Pentaphyllum* Leaf/Stem Extract; from the Far East activates the LXR, a master regulator of epidermal lipid synthesis. Through the stimulation of the epidermal lipid synthesis, the skin barrier is restored from within.
- The Western plant *Cistus Incanus* strengthens the reduced antioxidative defence system found in mature skin. Reactive oxygen species are neutralized, thus preventing further damage the skin barrier.
- The amino acid Glutamin acts metabolic fuel and re-activates the decelerated metabolism of aging skin cells.

The efficacy of Reforcyl® has been proven in several studies:

- Activation of LXR in human primary keratinocytes.
- Activation of key enzymes involved in epidermal lipid synthesis.
- Improvement of hydration, firmness, elasticity and smoothness of skin.
- Visible improvement of wrinkle depth in eye area.

[Ceraparts AA](#)

With a high proportion of Omega 6 and phytosterol from the pomegranate are used to protect against external noxes, increase the longevity of the fibroblasts, do improve the cell communication and protect the cellular defense.

[Hyaluronic Acid](#)

The most effective method to bind moisture in the skin in order to support the restructuring of the epidermis.
