

ANTI-WRINKLE NIGHT CREAM

Botox Effect Night Cream

REF: 1.12505 (R) PRESENTATION: 50ml jar
4.12505 (C) 200ml tube

Rich anti-wrinkle/Night Care with Long Lasting Effect on the latest high-tech base for elementary supply of skin organ and the immediate and long-term smoothing of wrinkles. Smallest particles commodity natural and biotechnological origin increase the water binding capacity of the skin, act a sponge and plump wrinkles visible on.

RECOMMENDED FOR:

Suitable for very dry mature skin, loss of density and vitality & skin slackening.

INGREDIENTS & BENEFITS:

Beaulift Soft Peptide (Argireline®)

This hexapeptide is an active substance, a pioneer in advanced, which is absolutely safe alternative to botulinum toxin (Botox), which is used in cosmetics for skin care, for a quick and visible reduction of wrinkles. Expression wrinkles are prevented by removing temporary muscle contractions. An action that can be locally controlled and always reversible. From a scientific point of view: The acetylcholine molecule (transmitter) is located in vesicles between nerve cells and serves as liaison to transmit impulses nervous muscle. When the fusion of vesicles with the cell membrane acetylcholine is prevented, the muscles are not stimulated. Beaulift Soft Peptide thwarts and prevents fusion of the membrane. The process is completely reversible and as soon as the peptide is no longer used the membrane fusion occurs normally.

Gatuline Age Defense®

Extracted from the Grenoble walnut, a highly specific variety, it provides the skin with phytic acid, polyphenols, proteins, mineral salts and vitamins. A true "pro-active material" that helps cutaneous cells to defend themselves against both intrinsic and extrinsic aging. Gatuline Age Defense® is not just a simple anti-aging active. Its boosting activity provides cells with a new kind of energy, reinforcing their natural protective systems and regenerating their energetic potential. Moreover, struggling against unavoidable chronological aging, it smoothes complexion and brightens the skin, providing a look of youth and firmness.

Substantiated effects:

- On extrinsic aging, also called photo aging:
 - protective effect on the antioxidant pool of the cell
 - prevention of the consequences of oxidative stress: reduced apoptosis and inflammation processes
 - in vivo confirmation validating skin bioavailability of the active
- On intrinsic aging, also called chronological aging:
 - biostimulating properties on keratinocyte proliferation and on fibroblastic protein neosynthesis
 - anti-elastasic activity

ANTI-WRINKLE NIGHT CREAM

Botox Effect Night Cream

Marine Filling Spheres®

Marine collagen and glycosaminoglycan microspheres that fill in wrinkles and lines. Dehydrated for better penetration, they swell up with water in the skin and fill wrinkles very quickly because of the volume increase. They also provide long term hydration thanks to a micro-reservoir effect.

Hyaluronic Filling Spheres®

Hyaluronic microspheres that smoothing deep wrinkles. Dehydrated for a better penetration, they are “micro-injected” into the skin and swell up with water. Wrinkles are filled in very quickly thanks to the volume increase. Also provide long-lasting hydration thanks to a micro-reservoir effect.

Marshmallow ECO®

Its emollient functions have a soothing, calming effect on the skin, assisting in the healing of skin inflammations. ECOCERT® certified Marshmallow-ECO's inhibitory effects on the hyaluronic acid degradation result in the maintenance of moisture levels. Marshmallow-filled spheres potentiate the effects of hyaluronic acid (Hyaluronic Filling Spheres). Slow decomposition matrix substance and hyaluronic acid, thus strengthening connective tissue.

PROPERTIES:

- Anti-age effect
- Smoothing
- Restructuring
