

MILD FACE PEELING - FOAMING GEL

Foaming Gel Exfoliator

REF: 1.11520 (R) **PRESENTATION:** 150ml tube
4.11520 (C) 200ml tube

Based on soft cleansing agents, this gel contains peeling particles which softly eliminate dead cells and dirt from the skin without affecting its balance. Formulated with Celandine with purifying and soothing properties and Lysine Aspartate which relax the muscles, this scrub leaves the skin feeling really refreshed and relaxed. The complexion is radiant, and the skin smoother, softer and more transparent.

RECOMMENDED FOR:

Suitable for all skin types excluding extremely dry and sensitive skin.

INGREDIENTS & BENEFITS:

Celandine Extract

Cleanse the skin, help combat bacterial and viral skin infection and relieve skin inflammation.

Lysine Aspartate

Lysine Aspartate has an energizing and anti-fatigue effect on the skin. It stimulates the skin's microcirculation and the synthesis of ATP, cellular fuel. Perfectly appropriate for tired and stressed skins, Lysine Aspartate restores radiance and tonus to the skin.

Exfoliating Agents

Based on Polyethylene particles. These very soft, fine spheres beads roll gently over the skin, detaching dead cells and impurities, smoothing and refining its texture without lacerations.

Diatomaceous Earth

From microscopic fossilized golden algae called Diatoms whose internal skeleton, called frustules, are made of silicon; extremely useful as a natural physical exfoliator to eliminate dead cells located in the epidermis or surface layer of the skin.

APPLICATION:

Once or twice a week: Apply to clean, damp face and neck, avoiding the delicate eye contour area. Rub in light, circular massage movements. Rinse thoroughly with fresh water. Dry the skin. Tone with cotton wool soaked in toner.

MILD FACE PEELING - FOAMING GEL

Foaming Gel Exfoliator

BEAUTY SPA:

Suitable for a cleansing in combination with a brush or an abrasive machine. Especially oily and keratinized skin areas can be optimally prepared for the specific care.

SALES IDEAS:

- Abrasive beads provide gentle mechanical exfoliation without irritation
- Improves skin texture and facilitates moisture penetration
- Help minimize surface irregularities and dullness
- Soothe the skin and stimulate cell renewal
- Reveals a brighter, smoother complexion
