

## SOUFFLE DE BEAUTE

Regenerating Innovative Cream Mousse

**REF:** 1.18625 (R) **PRESENTATION:** 50ml jar

REGENERATING Innovative Cream mousse with light UV protection as a regenerating beauty care for day and night. For the elementary support of the skin and the individual dosed care against the signs of time and a youthful radiance, regardless which age. A sophisticated composition of highly efficient repair active agents, rich in antioxidants, provides a natural and immediate remarkable and visible smoothing of wrinkles. The skin is protected against UV radiation and restored with freshness and elasticity.

### RECOMMENDED FOR:

For all skin type, especially for the first signs of aging skin and mature skin.

### Ingredients & Benefits:

#### Squalane

Is derived from Olives. It is bio-compatible with human skin and has similar molecular structure to the squalane secreted by the skin's oil gland. It retains moisture in the skin, revitalizes and strengthens skin tissue, heals scars and protects skin from environmental damage.

#### Gatuline Age Defense®

Extracted from the Grenoble walnut, a highly specific variety, it provides the skin with phytic acid, polyphenols, proteins, mineral salts and vitamins. A true "pro-active material" that helps cutaneous cells to defend themselves against both intrinsic and extrinsic aging. Gatuline Age Defense® is not just a simple anti-aging active. Its boosting activity provides cells with a new kind of energy, reinforcing their natural protective systems and regenerating their energetic potential. Moreover, struggling against unavoidable chronological aging, it smoothes complexion and brightens the skin, providing a look of youth and firmness.

Substantiated effects:

- On extrinsic aging, also called photo aging:
  - protective effect on the antioxidant pool of the cell
  - prevention of the consequences of oxidative stress: reduced apoptosis and inflammation processes
  - in vivo confirmation validating skin bioavailability of the active
- On intrinsic aging, also called chronological aging:
  - biostimulating properties on keratinocyte proliferation and on fibroblastic protein neosynthesis
  - anti-elastasic activity

## SOUFFLE DE BEAUTE

Regenerating Innovative Cream Mousse

### Ricinus Communis (Castor) Seed Oil

Is a vegetable oil obtained from the seed of the Ricinus Communis plant. It is used in cosmetics as an emollient, though its unique property is that when dry it forms a solid film that can have water-binding properties. It is rarely associated with skin irritation or allergic reactions.

### Double Action Sun Protection Mechanism

It has the ability to cover the UVA and UVB wave lengths. It's mainly to neutralize UV radiation dissipated by the sunlight and to minimize skin damage from prolonged sun exposure as well as helps prevent breakdown during UV exposure.

### Tocopherol

Vitamin E, a fat-soluble vitamin is a naturally occurring antioxidant. Reducing the formation of free radicals upon skin exposure to the sun rays and other sources of skin stress.

### **PROPERTIES:**

- Anti-age effect
- Smoothing, restructuring, firming
- Protects against environmental influences

### **APPLICATION:**

Apply in the morning and/or evening after cleansing thoroughly on face and neck. Suitable as a day cream or 24 H cream.

### **SALES IDEAS:**

- EO-free / PEG-free (no chemical contain)
- Paraben-free
- Free of mineral oil
- Alternative preservatives
- Vegan formula
