

MARIANNE ETERNAL CREAM

Luxury Anti-Age Day Cream

REF: 1.00110 (R) **PRESENTATION:** 50ml precious jar

This elegant anti-age day cream for luxurious nurturing demands, protecting against harming of external influence. The delicate, tender formula effects grace to elitist active agents, from highly efficient fresh cells of selected blossoms such as the Rose Damascus, the Blue Iris and the Arabian Jasmine. The immune system of the skin is strengthened by the unusual combination of a new agent carrier system with spectacular, bio-intelligent active agents and high-tech peptides. The collagen synthesis is constantly stimulated and improve the cell activity. Marianne Eternal Cream is the firming and protecting companion in the stressful everyday life.

MARIANNE - FREEDOM CREAM is the most innovative beauty product 2012! The highly elegant anti-aging day cream was awarded in April with the BSB Innovation Prize of the European cosmetics industry 2012. Isabelle Lancray, Paris wins for the second time one of the most prestigious science awards in the field of cosmetics.

RECOMMENDED FOR:

All skin types - all women who are simply worth it to herself always to grant the best of the best to her skin.

Ingredients & Benefits:

Ceraparts® AA (First Launch by IL)

Novel active agent system which is free of emulsifier and itself an active agent and an improvement of the emulsion performance. Protection of the omega ceramides and develops a mono particular film. Protection, against external noxas, stable within the emulsion matrix. It contains a lipoamino acid (Survicode®) which increases the longevity of the fibroblasts, improves the cell communication and protects the cellular resistance.

* SOPI Plus

Like all lipid Nano particles the Ceraparts® follow, by topical application, the SOPI (Stabilization, Occlusion, Protection, and Integrity) concept. The active mechanisms are based on developing mono particular film and the high integrity of the particle within the emulsion matrix. The plus is induced by the compound of the particle matrix.

Sodium Cocoyl Alaninate

Increase in cell communication, cell division rate of the keratinocytes is stimulated and strengthened the immunological defense.

MARIANNE ETERNAL CREAM

Luxury Anti-Age Day Cream

Palmitoyl Glycine

Inflammation can be reduced, the microcirculation is increased; gene expression of the extracellular matrix (ECM) is increased.

Fresh Flowers-Cell Extracts (Exclusive bouquet for IL)

Rose of Damascus: Symbol of beauty, freedom and renewal

Arabian Jasmine: Flower of Love

Blue Iris: Messenger of the gods

Intensive anti-aging effect. Increase in collagen synthesis and stimulation of cell activity and improves the cell respiration.

Tens Up®

Chicory extract (Oligosaccharide) - immediate and lasting firming and moisturizing like Cinderella effect.

Botrytis Ferment From The Sauternes Wine (Exclusive For IL)

Golden colored, lifting bio ferment, from a French grape variety (Sauternes). Double effect: Restructuring properties due to the increase of the collagens III-expression and improvement of the skin defensive forces by activation the anti-microbial acting Peptide LL 37 (pro-biotal mechanism).

Pearl Essence® (Conchiolin)

Increases the micro circulation and cell renewal. Improves the elasticity and moisture.

Thermostressine®

Synthetic peptides to increase genetic expression of HSP: Anti-stress peptides, better thermal adaptation.

Apalight®

Based on natural minerals, with a light sun protection factor, which does not develop bio persistent and hexagonal crystals. This natural agent is not liable for declaration. It increases the skin elasticity.

Perfume Oil Excellence

An exclusive Creation for L'ÂGE D'OR created by a perfumer in Paris.

Top note : Black currant and lime

Middle note : Rose, jasmine and plum

Base Note : Iris & vanilla powder
