

FOAMING LOTION

Mousse Lotion

REF: 1.10005 (R) **PRESENTATION:** 100ml dispenser pump

This mild refreshing mousse lotion as a perfect finish for the daily cleansing. A high vitamin essence from Tangerine refreshes, vitalizes and optimally prepares the cleansed skin for absorbing the skin care products applied subsequently. A special mild hypo allergenic complex of Glutamine Amino Acid and a natural fatty acid clarifies and refreshes. A soft film of comedonal characteristics protects the skin against excessive stress and desiccation.

RECOMMENDED FOR:

All skin type especially dull and stress skin.

INGREDIENTS & BENEFITS:

Tangerine Extract

Contains pectin, essential oils, and is rich in vitamins. Reputed to strengthen epidermis, increases circulation, cell hydration, support cell regeneration & collagen formation, protects against free radical damage and is a good skin tonic. Its scent is uplifting, energizing & promotes a sense of peace, calm and happiness, and to dispel the sense of depression.

Glutamine Amino Acid

A mild amino acid based surfactant derived from natural and renewable resources. Created from Coconut Oil and fermented sugar, this gentle cleanser has excellent cleansing and foaming properties, is environmentally-friendly and well-tolerated by sensitive skin types.

Propylene Glycol

A moisture carrying ingredient that works by absorbing water from the air. It penetrates the upper layers of the skin well and leaves skin feeling silky and soft.

Glycerin

Provide moisturizing actions while also naturally extending the preservation of the product.

APPLICATION:

Apply the foam to the face by using your fingertips and clean the face with a cotton pad if necessary.

FOAMING LOTION

Mousse Lotion

BEAUTY SPA:

After cleansing with Vitamina Cleansing Foam, treat the skin with Vitamina Foaming Lotion. Skin care products applied afterwards are easily absorbed by the skin.
