

DERMAZEN BALANCING PROTECTION CREAM

Day Cream For Extra Sensitive Skin

REF: 1.19010 (R) **PRESENTATION:** 50ml airless dispenser
4.19010 (C) 150ml airless dispenser

Soft system care product, based on lecithin, against stress and irritations of the sensitive and irritated skin, prone to overreactions.

Sensitive skin needs a good base – precious caring oils like Rice Germ Oil, Ximenia Oil, Squalan and the natural emulsifier Lecithin will provide this. The novel active carrier system Ceraparts® containing ceramides, conjoins like a second skin with the corneal layer and selectively releases the active substances. The released ceramides, which account for 50% of the corneal lipids, repair the structure of the stratum corneum lipids. Missing ceramides and cholesterols within this lamellar lipid layer are replenished and the TEWL is reduced considerably. Additionally in the Ceraparts® encapsulated Pomegranate strengthens the skin barrier and increases significantly the water retention (NMF). Lotus extract evens fine lines, prevents signs of skin ageing and protects - together with another inflammation blocker - against further (over)reactions. Naturally encapsulated Magnesium boosts all biological processes of the cells while Probiotic Glucan strengthens the skin's defensive forces and prevents a pathogen skin flora.

RECOMMENDED FOR:

For delicate, sensitive skin prone to flare-ups and irritation. It is also target on **serious** dehydrated skin cause to tightness, peel off and itchy.

INGREDIENTS & BENEFITS:

The Novel Active Carrier System Ceraparts®

- Repair, protection and care of the hydrolipid film
- Reduction of TEWL

Mg-Relax

Mode of action: Thanks to the double relaxing (Yin) and energizing (Yang) effect of its constituents, Mg-Relax is a rebalancing active to minimize stress effects on the skin. Mg-Relax acts particularly on inflammation reduction, on cellular metabolism stimulation and on face muscles tensing decrease. It is a physio-vegetal complex combining:

Magnesium PCA: Anti-aging, activates cellular functions and anti-inflammatory.

Blue & White Lotus Flower Extract: Contains high concentration of flavonoids & anthocyanins which highly effective scavengers of reactive oxygen and thus preventing the oxidative damage of proteins, lipids and DNA.

DERMAZEN BALANCING PROTECTION CREAM

Day Cream For Extra Sensitive Skin

Pomegranate Phytosterol

An excellent antioxidant; enhances the skin's resilience and significantly increases the skin's ability to retain water.

Neutrazen

A synthetic neuropeptide reduces inflammation and strengthens the walls of blood vessels and prevent the spread of pathogens in the skin.

Probiotic Glucan (BioEcolia)

α -oligoglucan, protector of the skin ecosystem. Plant based Glucan to inhibit the pathogenic germs on the skin. BioEcolia rebalances, maintains and even stimulates the skin's Ecoflora, it considered to be the body's first line of defence against external attack.

Rice Germ Oil, Ximenia Oil & Squalan

- Rich in unsaturated fatty acids and tocopherols
- Natural emulsifier

PROPERTIES:

- Repair, protection and maintenance of hydro-lipid film
- Controlled and targeted drug delivery with simultaneous "skin repair"
- Reduction of inflammation
- Prevention of defective / disturbed skin flora
- Reduction of the TEWL
- Rich in unsaturated fatty acids and tocopherols

APPLICATION:

Daily morning after cleansing incorporate a sufficient amount gently into the skin. The combination with the system ZENSIBIA toilettries NUTRIZEN Balancing Nutrition Cream and ULTRAZEN Balancing Serum and is highly recommended.

BEAUTY SPA:

Ideal final care after treatment.

SALES IDEAS:

- EO-/ PEG-free (no chemical contain)
- SPF 5
