Best Night Cream For Extra Sensitive Skin

**REF:** 1.19020 (R) **PRESENTATION:** 50ml airless dispenser

4.19020 (C) 150ml airless dispenser

Rich system care product, based on lecithin, for regeneration and reconstruction of the skin barrier and to decrease inflammatory processes.

The emulsion matrix based on precious oils is – along with all other ingredients - active substance itself so that stressed skin will calm immediately. The ideal repair of the skin's barrier function and the reduction of the TEWL are the aim of the unique Ceraparts®, mainly made of Ceramides and Pomegranate. The released Ceramides replenish the missing lipids in the stratum corneum while the active substance of the Pomegranate, rich in Pro-Vitamins, strengthens the skin barrier. The Kudzu Bean extract acts like an antihistamine by blocking the histamine receptors and thus preventing new reactions. A synthetic peptide strengthening the natural defensive forces generates balance. Probiotic Glucan additionally prevents a pathogen skin flora while a synthetic, sustainably produced Neuropeptide reduces mediators of inflammation and stabilizes vessels.
