

360° ANTI-WRINKLE SERUM
TRIPLE-COLLAGEN COMPLEX

This silky-nectar, anti-wrinkle serum fortified with a triple collagen complex provides a visible line-filling effect by infusing dry skin with intense moisture and lasting resilience. It offers three different paths to collagen refurbishment by increasing the skin's own collagen production (via soluble collagen), strengthening it (via a collagen boosting peptide and botanical extracts), and safeguarding it (via collagen protective factors).

The TECHNOLOGY

TRIPLE-COLLAGEN COMPLEX

Is comprised of (1) soluble collagen, which increases collagen; (2) a collagen boosting peptide, Palmitoyl Pentapeptide-4, which strengthens collagen, together with botanical extracts from the Argan tree; and (3) Collagen protective factors, microalgae *Nannochloropsis oculata* together with a well-balanced fraction of polysaccharides, which safeguards collagen.

HYALURONIC ACID

Is known to improve the skin's density and resilience. This low molecular weight hyaluronic acid has a reduced size that facilitates its delivery and enhances its penetration across the skin barrier, providing an immediate and long-term filling effect.

Ocean-Matrix Complex

Comprised of polysaccharides from botanical origin and lyophilisate from the red algae (*Porphyridium cruentum*) is optimized to give a tightening effect that is intense and immediately perceivable. It also offers remarkable skin smoothing effects reducing roughness while acting like a protective barrier against oxidative stress.
