The TECHNOLOGY

CELLACTEL 2 COMPLEX

Skin-revitalizing ingredient combination that helps repair essential skin functions, lift and regenerate the skin.

ANTI-GLYCATION COMPLEX (AMADORINE)

An excess of sugar produces “glycation” which can alter the skin. This ingredient helps collagen to renew itself and acts as a powerful “sugar trip”. It effectively combats the decrease in the suppleness and tone of the skin.

BUTCHER'S BLOOM EXTRACT

Has vaso-constricting (reduces venous dilation) and softening properties.

GINGKO BILOBA EXTRACT

Has anti-inflammatory and venous protective benefits. It helps to improve tissue irrigation and to activate the energetic metabolism of cells by increasing the consumptions of glucose, oxygen and TPA synthesis. It has also free radical scavenging properties.

CAFFEINE

Helps to drain the fatty tissue of water and toxins.

UVA & UVB SUN FILTERS

Protection against harmful sunrays.

PERFECT PROFILE REMODELING CREAM

FUCOGEL (BIOSACCHARIDE GUM-1)

Polysaccharide which has a long-term moisturizing effect and provides a pleasant softening and cooling sensation.

The APPLICATION

Apply in the evening onto perfectly cleansed skin, and /or in the morning before applying the appropriate Swiss line products. With a moderate amount of cream on your fingers, gently massage, beginning at the chin and working down the neck.
