

## AQUA-PURE ENZYMATIC MASK

This ultra-creamy clay mask with antioxidant and calming properties, offers an enzymatic, skin-friendly, exfoliating alternative to the typical oily-skin masks, which can often feel over-drying or aggressive to fragile-feeling skin. It instantly revives with its efficient, yet gentle, deep-cleansing action. The inclusion of papain, a natural proteolytic enzyme that digests dead skin cells without harming healthy, living ones, leaves the skin emerging clarified as if dead cells have been washed away.

No AHA or BHA action so can be applied as often as needed.

Ref. 1129 - 75ml tube

Ref. 1129C - 250ml tube

### The BENEFITS

- Papain gently, yet effectively, exfoliates the skin thanks to proteolytic enzymes.
- Kaolin absorbs excess sebum more gently than other clays.
- Green tea and rosemary leave extracts offer antiseptic, antibacterial and moisturizing properties, soothing the skin while leaving it soft, smooth and comfortable.

### The CUSTOMER

- Recommended for impure / problematic and / or oily skin.
- For combination skin, the mask can be applied on the T-Zone (forehead, nose and chin).

### The TECHNOLOGY

#### ENZYMATIC COMPLEX

Contains Papain, an enzyme obtained from papaya extract that is capable of breaking down and “digesting” the proteins that make up most cellular debris and pore clogging materials.

#### KAOLIN

White clay with excellent oil-absorbing and remineralizing properties.

#### PLANT ANTIOXIDANTS

Green tea extract (*Camellia sinensis*), possessing anti-inflammatory, antiseptic and antioxidant properties, and rosemary leaves (*Rosmarinus officinalis*), rich in phenolic compounds, are combined with bisabolol, obtained from chamomiles, to address the critical oxidation and degradation of sebum typically occurring in oily skin – one of the key causes of blemishes and cumulative inflammation.

## AQUA-PURE ENZYMATIC MASK

### The APPLICATION

Cleanse and dry skin, before smoothing on a thin layer of the mask onto face and under the jaw-line, where imperfections also appear. Avoid the eye area. Leave on for 10-15 minutes, then rinse off with tepid water.

The frequency of application varies depending skin condition. Impure skin with breakouts: up to 3 x week; very oily skin: 2 x week; combination skin: 1 x week.

Note: You may experience a light tingling sensation as the papaya enzymes penetrate the skin. This informs you that the mask is working to detoxify your skin, not to irritate it. However, discontinue use if strong skin discomfort occurs or try reducing the frequency of application.
