

AQUA-VITALE GEL-SERUM

This oil-free, refreshing serum offers a natural, moisture-trapping effect thanks to its high quota of hyaluronic acid. It penetrates quickly to revitalize and provide the skin with visible long-lasting moisture plus adds the illusion of less visible pores. Instantly, the skin feels fresher, more supple and drenched with moisture, without any heaviness or greasy residue. Paraben-free.

Ref. 1126 - 30ml pump bottle

Ref. 1126C - 150ml pump bottle

The BENEFITS

- The combination of hyaluronic acid and beech shoot extracts provides instant and long-lasting moisture.
- The remaining ingredients combat free radical damage and strengthen the skin's regenerative abilities.

The CUSTOMER

- All consumers with combination skin conditions.
- For those with normal skin who prefer oil-free textures, as well as those living in warm, humid climates.

The TECHNOLOGY

ALPINE BIO EXTRACTS

A host of concentrated organically grown Swiss Alpine plants: Edelweiss, Yellow Gentian and Coltsfoot, provide antioxidant, re-mineralizing, purifying and brightening properties.

HYALURONIC ACID

This naturally occurring polysaccharide acts as a "molecular sponge" trapping and holding water up to a 1000 times its own weight.

RED ALGAE POLYSACCHARIDES

This seaweed extract is stimulating, revitalizing and nourishing due to its iodine and sulfur amino acid content.

BEECH SHOOT EXTRACTS

Obtained from fresh young tissues of beech trees, this extract helps the skin to maintain its elasticity and hydration level. Also helps avoid any thinning of the skin.

LIPOSOMES

With coneflower extracts: help oxygenate and regenerate the skin.

AQUA-VITALE GEL-SERUM

VITAMIN E

An antioxidant that helps decrease trans epidermal water loss and maintain connective tissue.

The APPLICATION

Apply serum, day and / or night, over the face and the neck. Follow with usual Swiss line moisturizer.

Use regularly or as an occasional intensive care treatment.
