

ANTISEPT

Spot concealer

Vitamin A & E

- Vitamin A: This powerful antioxidant aids healthy skin reproduction and helps reverse photo-damage in skin.
- Vitamin E: A powerful membrane antioxidant, Vitamin E has soothing properties which helps improve skin healing and provides essential moisture and photo-protection.
- Ideally protected against external aggressions, the skin's surface is soft and satiny to the touch.

Allantoin

Allantoin is derived from comfrey root. It is a healing, moisturizing, soothing and is anti-irritating. Allantoin is a valuable cell-proliferating healing agent which stimulates healthy tissue formation.

APPLICATION:

As soon as the first redness or inflammation does appear apply the Antisept locally. The efficiency will be improved by applying the product several times a day.

SALES IDEAS:

- Paraben free
- Ideal for use on habitual breakouts or surprise pop-ups.
- Touch up throughout the day as needed.
- Can wear alone, under makeup or for touch-ups.
