

FRESH PEEL

Intensive gel peeling

REF: 770 (R) **PRESENTATION:** 50ml tube
770.2 (C) 200ml tube

The BASIC HYDRO Fresh Peel is an intensive mechanical gel peeling with a fresh oceanic fragrance for the peeling of the horny layer on the epidermis. Natural abrasive particles of silicon and bamboo dissolve the keratin; it is eco conscious and gifts an absolute pure skin feeling.

The complexion is refined and intensified for the absorption of active agents in the corresponding care products. A regular use donates a refreshed and rosy complexion.

RECOMMENDED FOR:

For all skin types.

CHARACTERISTIC:

Abrasive, cleansing, regenerating, smoothing and refining.

INGREDIENTS & BENEFITS:

Chamomile

- Well-known properties act as anti-inflammatory and soothing agents.
- It also helps to enhance the skin appearance by reducing the dry flaking skin.
- Restore the suppleness to the skin.

Hydrolyzed Sweet Almond Protein

- Rich in vitamin E and anti-oxidant.
- Provide healthy, unsaturated fats that help moisturize the skin from the inside out.
- It has hydrating and protective properties.

Bamboo Silica

Organic silica from the nodes of bamboo stems, it gently and effectively exfoliates to refine and soften skin. It removes impurities and regulates the thickness, thus providing better cellular oxygenation and a purified appearance. Skin irregularities are reduced and the skin appears more radiant.

Diatomaceous Earth

From microscopic fossilized golden algae called Diatoms whose internal skeleton, called frustules, are made of silicon; extremely useful as a natural physical exfoliator to eliminate dead cells located in the epidermis or surface layer of the skin.
