

CREAM PHOTO SYMBIOTIC

Light repair care

REF: 480 (R) **PRESENTATION:** 50ml jar
480.2 (C) 200ml tube

With the Dr. RIMPLER Cutanova Cream Photo Symbiotic (oil-in-water-texture) we developed an anti-age and repair cream, which is a class of its own for highest skin demands. The cream with SPF 8 acts like an invisible protector from outer stress and aggressive environmental influences. Only natural plant oils are taking care for a long lasting " Feel good in your skin". Ideal as makeup base.

RECOMMENDED FOR:

For dry, demanding skin and combination skin.

CHARACTERISTIC:

Stimulates the own natural protection process, strengthens the immune system and stimulates the bio-synthesis of skin proteins, UV-protection, perfect day care, optimally absorbed by the skin. Light, non-oily texture, helps healing lesions and redness, skin appears more smooth and soft.

INGREDIENTS & BENEFITS:

Beta-Glucan

An ingredient derived from yeast, reported to enhance the skin natural defense mechanisms. Enables the skin to bind water more effectively, it stimulates cell renewal rate and it boosts the immune system in the skin. It also acts as an anti-oxidant.

Phytoflavone (Quercetin)

Quercetin is a flavonoid naturally derived from the Japanese plant "sophora japonica". An ultra-powerful anti-oxidant helps to minimize the signs of aging and keep skin looking younger. Inhibits effect of inflammation producing enzymes, inhibits peroxidation from UV light and inhibits the breakdown of elastin. It catalyzes Proteasomes in our cells, dramatically improving skin cell functioning: cells are turned back to a youthful state, creating younger, healthier and more elastic skin.

Sunflower Seed Extract

Based on polyphenols and photoreceptors extracted and purified from the sunflower plant, it acts as a natural photo protector by quenching photo-induced free radicals and reinforces the cell protective mechanisms of skin.

CREAM PHOTO SYMBIOTIC

Light repair care

Squalane

A highly refined moisturizing oil derived from the olive; a major component of human skin surface lipids (or oils); helps to keep skin soft and healthy; antioxidant capabilities help to protect from the harsh effects of the environment.

APPLICATION:

The cream is recommended for HER and for HIM. The special light and non-oily texture gives HIM a fresh and smooth skin after the daily shave. The ingredients stimulate the quick healing up of redness and balance the skin to normal condition.

BEAUTY SPA:

Light, modern cream for Him & Her to support the skin's natural repair mechanisms. Limited suitability for massage.
