

CREAM NANOSENSITIVE FORTE

Repairing special care

REF: 467 (R) **PRESENTATION:** 50ml tube

For inflamed and acute skin conditions, it is important to treat not only the itching and burning but also their effects on the skin. Scratching damages the skin barrier and destroys the hydrolipid film, thereby making areas of skin vulnerable to attack by microorganisms and other harmful substances. This is exactly where preservative-free and fragrance-free Cream Nanosensitive Forte comes in. Cream Nanosensitive forte is identical to Emulsion Nanosensitive in its basic effect and composition; however, it contains higher concentrations of oil and active substances and a novel ferment extract from *Pseudoalteromonas*, a bacterium that originates from the Antarctic. This biologically produced extract causes a restructuring of scarred skin tissue in inflamed areas. Furthermore, it reduces inflammatory processes and ensures that the skin regains its adaptability and resistance to irritation.

RECOMMENDED FOR:

For the delicate, extremely sensitive and atopic skin.

CHARACTERISTIC:

Preservative & fragrance-free, cream on a natural-identical and biomimetic base, moisturizing, anti-inflammatory, anti-microbial, antioxidative and reduces the TEWL.

INGREDIENTS & BENEFITS:

Nanopearls Hemp® (Lipid Nanoparticles With Hemp Oil & Squalane)

Supports the skin step by step with unsaturated fatty acids and oils, reduces the TEWL (transepidermal water loss) and avoiding of external noxae.

Ximenia Americana Seed Oil

Has a powerful hydraulic locks, the lock water barrier of skin, while to increase the sebum organizational structure, reduce the inflammation and sensitive.

Kudzu Extract

It acts as antihistamines, which block the histamine receptors and thus prevents the development of allergic reactions. Offers free radical scavenging, enhances procollagen synthesis in fibroblasts and improves skin tone, skin brightening and elasticity.

CREAM NANOSENSITIVE FORTE

Repairing special care

Defensil®

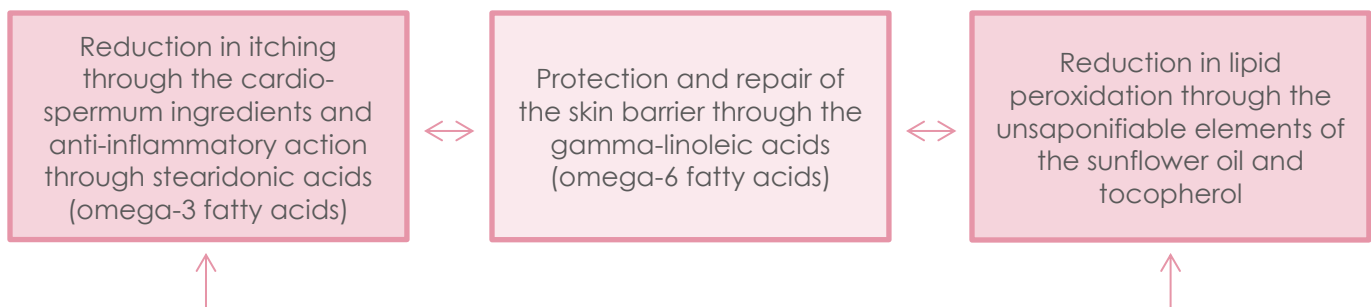

A multifunctional active ingredient mixture for sensitive skin. Defensil® protects the skin barrier and has an anti-inflammatory effect.

- **Balloon Vine (Cardiospermum Halicacabum)**
Cardiospermum is effective against itching and allergic skin rashes. It harmonizes and protects irritated skin.
- **Echium Oil – cold pressed power oil**
The stearidonic acid (omega-3 fatty acid) from the echium oil possesses anti-inflammatory properties, protects and strengthens the skin barrier.
- **Unsaponifiable elements of the sunflower**
The unsaponifiable elements of the sunflower oil provide valuable nutritional elements such as phytosterols, tocopherols and squalene.

Scientifically proven effects:

- Rapid skin calming after physical irritation (in-vivo study)
- Strengthening of the skin against chemical influences (in-vivo study)
- Reduction of irritation and redness compared to hydrocortisone and panthanol (in-vivo study)

3-phase operating principle

Antarcticine® (Pseudoalteromonas Ferment Extract)

A Glycoprotein from the Antarctic Sea with cryoprotective, restructuring and anti-wrinkle properties.

- Helps the skin retain water, preventing cutaneous dryness.
- Presents a cryoprotective effect due to its ability to modify the morphology of ice crystals.
- Stimulates fibroblast adhesion and keratinocyte growth, regenerating tissues and enabling a faster healing of wounds.
- Increased collagen type I and IV, as well as elastin, resulting in a restructured skin and a reduction in wrinkles.

CREAM NANOSENSITIVE FORTE

Repairing special care

Microsilver BG ®

Microsilver BG ® is an innovative form of pure metallic silver. It is a natural antimicrobial active, supports treatment of irritated and inflamed skin. It is extremely effective, even at a low dosage and has a long-lasting effect (depot and time-release effect).

	Features	Benefits
Regulating	Anti-microbial	Highly against a broad spectrum of germs/ microbes prevents infections
Protective	Anti-bacteria	Kills irritant bacteria, normalizes the skin flora, keeps a healthy bacteria balance
Stabilizing	Anti-inflammatory	Prevents inflammation caused by pathogenic germs, disrupts the multiplication of harmful micro organisms

APPLICATION:

Morning and evening or several times daily, apply to the affected areas of the skin. Ideal combination with the Emulsion Nanosensitive.

BEAUTY SPA:

Recommended as a post treatment care after micro dermabrasion.
