

HYDRO GEL

Soothing Creamy Gel

REF: 470 (R) **PRESENTATION:** 50ml tube
470.2 (C) 200ml tube

Our soft SENSITIVE Hydro Gel with liposomes helps sensitive and stressed skin to help itself. A state-of-the-art combination of purely plant ingredients provides lasting moisture and special protection against irritation, and specifically prevents allergic skin reactions. Because of its light texture, this gel-like cream fluid is an ideal base for makeup. And thanks to its anti-inflammatory properties, it is also recommended as soothing skincare for men after shaving.

RECOMMENDED FOR:

For dry and sensitive skin.

CHARACTERISTIC:

Intensely anti-irritant. Intensive moisturizing care to reduce transepidermal water loss with anti-inflammatory and wound-healing properties. Relipidation of the skin is measurably and profoundly stimulated, especially in combination with Dr. RIMPLER INTENSIVE MED N° 351 Sensitive Matrix.

INGREDIENTS & BENEFITS:

Defensil ®

A multifunctional active ingredient mixture for sensitive skin. Defensil ® protects the skin barrier and has an anti-inflammatory effect.

- **Balloon Vine (Cardiospermum Halicacabum)**
Cardiospermum is effective against itching and allergic skin rashes. It harmonizes and protects irritated skin.
- **Echium Oil – cold pressed power oil**
The stearidonic acid (omega-3 fatty acid) from the echium oil possesses anti-inflammatory properties, protects and strengthens the skin barrier.
- **Unsaponifiable elements of the sunflower**
The unsaponifiable elements of the sunflower oil provide valuable nutritional elements such as phytosterols, tocopherols and squalene.

Scientifically proven effects:

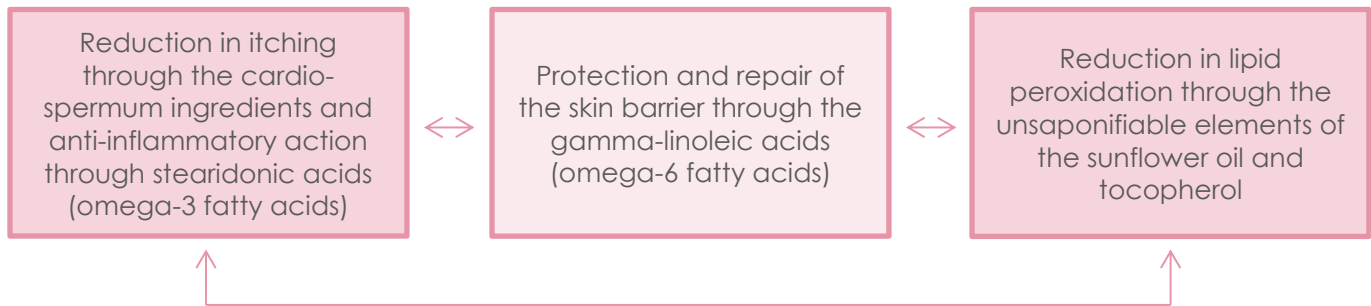

- Rapid skin calming after physical irritation (in-vivo study)
- Strengthening of the skin against chemical influences (in-vivo study)
- Reduction of irritation and redness compared to hydrocortisone and panthanol (in-vivo study)

HYDRO GEL

Soothing Creamy Gel

3-phase operating principle

Vitamin E

Vitamin E helps prevent the appearance of age spots and maintains the skin's oil balance. It also helps strengthen skin barrier function by acting as a skin conditioning agent and preventing transdermal water loss.

NMF-Factors Encapsulated In Liposome

Its cushy formula features a liposome delivery system, which mimics the skin's natural structure, showed an excellent ability to retain water in the system. Replicates the skin's own Natural Moisturizing Factor and boosts the water retention in the epidermis, while maintaining and repairing the skin's protective barriers.

Wheat Germ Oil

A highly-nutritive oil rich in vitamin E, essential fatty acids and antioxidants. Wheat germ oil aids the formulation of new cells, improves circulation and helps repair sun damage. Very beneficial for dry or mature skin, it promotes a smoother, younger looking complexion.

Corn Germ Oil

Natural, nurturing oil with skin-like lipids, restores the balance of oils and moisture. Corn germ oil contains approximately 50% of linoleic acid (omega 6) and is also particularly high in vitamin E and zinc. Both of which are known for their antioxidant properties, and for stimulating new healthy cell growth.

APPLICATION:

Apply to the face and neck after appropriate cleansing. Excellent for day care, especially in the warm season.
