

## TONIC

Mild toner

**REF:** 716 (R)

**PRESENTATION:** 100ml plastic bottle

Our SENSITIVE Tonic has been especially developed for sensitive and allergic skin. Active ingredients such as allantoin and extracts of the African "resurrection plant" Rose of Jericho ensure rehydration of dry skin areas, strengthen the weakened and permeable skin barrier, revitalize sensitive areas of skin, and visibly improve the condition of skin prone to redness. A noticeable well-being experience for your skin.

### RECOMMENDED FOR:

For dry and sensitive skin.

### CHARACTERISTIC:

- Soothing, anti-irritant, protective, stabilizing and stress-reducing.
- Intelligently controls the osmotic balance between internal and external cell environments.
- Activates an antioxidant protection system and reduces moisture loss in the cells by producing protective proteins.

### INGREDIENTS & BENEFITS:

#### MYRAMAZE® (An Oasis of Wellbeing for Desert-like Skin)

MYRAMAZE®, an extract of *Myrothamnus flabellifolia*, is like an oasis for stressed, "desert-like" skin with a particularly high proportion of protective substances. It protects membrane structures from dehydration and preserves the most important skin lipid linoleic acid, against oxidation. A one-time application of MYRAMAZE® invigorates the skin for more than 48 hours. With regular use, MYRAMAZE® effectively revives, regenerates and strengthens skin that is stressed, attacked and depleted.

Scientifically proven effects:

- Protects membranes during dehydration (in-vitro study)
- Protects skin lipids from oxidation (in-vitro study)
- Revives the skin for longer than 48 hours after a single application (in-vivo study)
- Rehydrates dry skin, strengthens the weakened skin barrier, revitalises sensitive skin, visibly and noticeably improves skin texture (in-vivo study)

## TONIC

Mild toner

### Allantoin

Is an active moisturizing ingredient, found in the root of the comfrey herb and has a lovely therapeutic action, promoting healing of the skin. It is considered an excellent anti-irritant, calming and soothing inflamed skin.

### **APPLICATION:**

Apply SENSITIVE Tonic with a cotton ball and gently press in with your hands. This removes any residue from your cleanser, stabilizes the skin and optimally prepares it for subsequent care products.

### **SALE IDEAS:**

- Very mild formulation for sensitive and allergic skin.
- Free of fragrances, colorings and alcohol.

### **BEAUTY SPA:**

Apply to the face with a cotton pad after cleansing and deep-cleansing.
