

## MASK ANTI REDNESS

Calming cream mask

**REF:** 445 (R)      **PRESENTATION:** 75ml tube  
 445.1 (C)                                      200ml tube

This Dr. RIMPLER – product “Mask Anti-Redness” was especially developed for the high sensitive and stressed skin with redness areas. The combination of natural plant extracts - like a pure plant based extract of saponins with the active ingredient “esculin” – gives this mask very extraordinary properties. The mask is your immediately helper for balancing irritated skin as well as a permanent skin care for chronic redness. As well as for men after shaving and also for burned skin after sun bathing! Your new first aid for the worst case in your salon!

### RECOMMENDED FOR:

For skin prone to redness and micro-vascular disorders.

### CHARACTERISTIC:

High efficiency with visible results show the reduction of redness. Increasing of the microcirculation and elasticity of the capillaries. An immediately help for acute stressed and irritated skin after extraction of blackheads or sun bathing.

### INGREDIENTS & BENEFITS:

#### Pilewort Extract

Extracted from Lesser Celandine, it exhibits a strong anti-inflammatory potential. Highly concentrated in purified saponins, this powdered ingredient shows immediate and long-lasting soothing action.

- Soothing properties (protects from inflammation induced by actinic erythema).
- Anti-redness (reduces permanent red blotches on the skin, by an effect on cutaneous microcirculation and skin color).
- Free radical scavenger on superoxide anion.
- Recommended for irritated (after-shave, sun damage...) or sensitive skin (blotchy skin, baby lines...).

#### Ascophyllum Nodosum (Seaweed) Extract

A marine plant-based extract shown to reduce pigment of synthesized melanin. Stimulates cellular renewal, encouraging the elimination of melanin migrating it towards the stratum corneum. Provides protection against free radicals while defending cellular membranes.

## MASK ANTI REDNESS

Calming cream mask

### Esculin

Esculin is the primary active ingredient of horse chestnut from which it is extracted and purified. It is an excellent vein tonic, helping to improve microcirculation. Esculin is an anti-inflammatory agent that also acts as an effective free radical scavenger. Well-known for its natural protecting attributes, it is recommended for the treatment of bruises, puffiness and swelling.

### Beeswax (Cera Alba)

A natural wax produced in the beehive of honeybees. This ingredient is known for its anti-inflammatory, anti-allergic, antioxidant, antibacterial, germicidal, skin softening, and elasticity-enhancing properties.

### Lanolin

Produced from lanolin that comes from the wool of sheared sheep. It lubricates, protects and soothes the skin without unpleasant stickiness, and is extremely effective in preventing water loss from hair and skin. It is known to relieve chapped and cracked hands, diaper rash, minor burns, windburns and minor skin abrasions, as well as help fight wrinkles.

### **APPLICATION:**

Apply as often as you want a thick layer to skin and neck area. Finish product for relaxing and calming the stressed, irritated skin which tends to redden. The mask penetrates to the skin within 10-15 minutes. Remove rests dry with tissue or with wet sponges.
