

## FACE CREAM SPF 30

Rich sun cream

**REF:** 513 (R)

**PRESENTATION:** 75ml tube

This high quality sun care cream provides protection, care and regeneration, specifically for the face and neck. Precious oils have a soothing, protective effect while a natural extract, rich in ursolic, oleanolic acid, vitamins B and E, protects the natural collagens and stimulates their production. The harmful effects of the sun are thus avoided and faint lines and folds are smoothed out. The application of this product with its light, pleasant texture is an enjoyable skin care experience during sunbathing.

### RECOMMENDED FOR:

All skin types.

### CHARACTERISTIC:

Sun protecting, moisturizing, anti-inflammatory, promotes cellular repair and regeneration.

### INGREDIENTS & BENEFITS:

UV-Protective:

[Octinoxate \(Ethylhexyl Methoxycinnamate\)](#)

An FDA approved water-resistant sunscreen that provides excellent UVB absorption that helps prevent sun damage to the skin.

[Oxybenzone \(Benzophenone-3\)](#)

Oxybenzone primarily functions as a photo stabilizer and sunscreen. Among the selection active chemical protectants, Oxybenzone covers UVB and some UVA rays with wavelengths from 290 to 360 nm, protecting the skin from direct DNA damage. It protects against a wider spectrum of UVA rays but not completely.

[Panthenol](#)

Derived from plants, Panthenol is also known as B5. It is a humectant property to optimize moisture levels. It stimulates the formation of new skin cells, improves healing and counteracts inflammation. Panthenol is also used to alleviate mild sunburns.

[Squalane](#)

Derived from olives; a major component of human skin surface lipids (or oils); helps to keep skin soft and healthy; antioxidant capabilities help to protect from the harsh effects of the environment.

## FACE CREAM SPF 30

Rich sun cream

### Ursolic Acid + Oleanolic Acid

Powerful, naturally derived triterpenoids acid. It provides a targeted approach to anti-aging skin repair and sun protection through reactivation, protection and optimization of the skins own cellular mechanisms. Furthermore, it protects and refolds proteins damaged by UV and free radical exposure and stimulates new collagen synthesis to counter the effects of thinning and sagging skin caused by photo damage.

### **APPLICATION:**

Before sunbathing, apply to face and neck. Reapply approximately every 2 hours and always after bathing in order to maintain the complete UV-protection.

### **SALES HINTS:**

- Recommended as a face sun care product for every holiday in order to guarantee adequate UV protection.
- Sun protection and skin repair in one product.
- An ideal supplement to complete cabin treatments such as dermabrasion and AHA- and whitening facials, which significantly increase photosensitivity.

### **BEAUTY SPA:**

As a final care after a microdermabrasion or fruit acid facial treatment.
