Refreshing, alcohol-containing tonic to complete the cleansing of problem skin. Active substances that soothe, clarify and balance normalize skin equilibrium and optimally prepare the skin to absorb caring ingredients subsequently applied.

RECOMMENDED FOR:

For combination, oily skin and acne-prone skin.

CHARACTERISTIC:

Anti-inflammatory, soothing, stabilizing and contains alcohol.

INGREDIENTS & BENEFITS:

Rye Ferment Extract

This patented organic ingredient from rye has a natural, gently clarifying effect, normalizing the skin flora by selectively killing off pathogenic germs. This prevents skin irritation and supports regeneration of the matrix. Relieves itching, strengthens the skin barrier, smooths and nourishes the skin, which improves the flow of sebum.

Allantoin

Is an active moisturizing ingredient, found in the root of the comfrey herb and has a lovely therapeutic action, promotes wound healing and accelerates cell regeneration. It is considered an excellent anti-irritant, calming and soothing inflamed skin.

Marine Exopolysaccharide

This pure substance is cultivated and produced naturally from a special type of plankton. The isolated active agent interferes in the production of GAGs and therefore develops a deep-seated water reservoir in the skin. At the same time, it has been shown that the proteins which are important for the keratinization are stimulated in the epidermis and that keratinization is normalized in a natural way, without irritating the skin from the outside with the different manual peeling methods.

APPLICATION:

Apply with a saturated cotton pad after cleansing.
