

CREAM EYE CONTOUR AQUA COMPLETE

Special eye care

REF: 461 (R) PRESENTATION: 20ml tube

For bright eyes! Special regenerating care with hyaluronic acid and a vitalizing algae extract for the delicate and demanding eye area. This cream helps diminish under-eye bags while smoothing and reducing wrinkles caused by dryness.

RECOMMENDED FOR:

For all skin types.

CHARACTERISTIC:

No perfume, smoothing, moisturizing and repairing.

INGREDIENTS & BENEFITS:

Eyeseryl® (Acetyl Tetrapeptide-5)

Anti-edema properties with proven efficacy in reducing puffy eye bags. It has multiple mechanisms of action:

- Improving blood circulation and reducing blood pressure in vessels under the eye by inhibiting activity of the enzyme called Angiotensin Converting Enzyme (ACE) which is responsible for the increase in blood pressure.
- Avoiding water leakage from blood vessels and preventing fluid accumulation.
- Skin strengthening by protecting the collagen from cross-linking (glycation), which is one of the main causes of the formation of eye bags.

Silanol (Methylsilanol Mannuronate)

Silanols are organic derivatives of silicon, ours are extracted from laminaria, brown algae. Methylsilanol Mannuronate binds moisture in the epidermis and provides long-lasting moisturising properties that help to combat the deterioration of collagen and elastin fibers in skin therefore firming and strengthening the skin. It is also known to act as an antioxidant to actively fight free radicals and prevent premature skin aging.

Hyaluronic Acid

A naturally occurring polysaccharide, acts as a “molecular sponge” trapping and holding water up to a thousand times its own weight and supports collagen fibers and structural proteins to keep skin plump and youthful.

CREAM EYE CONTOUR AQUA COMPLETE

Special eye care

Dipeptide (Aspartyl-Arginine)

Natural dipeptide from blue-green algae acts like a natural retinoid that smoothes the skin and has been clinically proven to reduce fine lines and wrinkles with regular use. It stimulates the vitality and proliferation of skin cells and also has a strong anti-aging effect.

Cupuacu Butter

It binds moisture to the skin very effectively and protects it from drying out. Increases the skin's elasticity, strengthens the skin barrier and reduces redness.

Shea Butter

Contains essential vitamins A, E & F for healthy skin, evens skin tone, returns luster to the skin, moisturizes and maintains skin moisture, protects the skin barrier, restores firmness, keeping skin clear and smooth, and soothes skin irritation.

Macadamia Oil

It helps regulate the skin's moisture balance. It therefore has a smoothing and regenerating effect. Ideal for dry, sensitive and irritated skin, as well as for older skin.

Squalane

Derived from olives, is one of the most powerful moisturizer. It assists in new cell regeneration while reducing the appearance of wrinkles. Mimics the lipid content of skin and helps support the skin barrier and is skin's first line of defense against water loss.

APPLICATION:

Apply gently with your fingertips in the morning and in the evening.

BEAUTY SPA:

As part of a classic treatment, to be used as an eye pack and final care for the eye area.

SALES IDEAS:

Nourishes and evens fine lines of the especially very delicate eye area and plumps up wrinkles visibly and profound. The cream counteracts pre-ageing signs of facial expressions.
